Rosas Gap

One of the activities we did during camp was Hut Building. We walked from camp down a dirt path to a large clearing. Nearby was the spot where we did yabbying, a billabong. There were lots of branches to make huts with around, coming from the tall gum trees that surrounded us. It was easy finding branches to make huts with because it never took long to find the one you needed. There were also many spots to build a hut over huge branches and small trees. Even though it was quite hot in the hut building area, it was quite a relaxing activity. Stuart

The Giant Swing was my favourite activity on camp. It is so much fun. When you have your harness on you have a team of about 12 to pull you up with a rope. Once you are at 18 metres (the highest point, I only went three quarters of the way) you pull another rope and you drop down and then swing. It is very secure but it doesn’t feel that way when you drop it just feels like your stomach drops. It is nothing like a swing when you’re in the air, it feels more like a ride but was still one of the best things I have ever done. Laura

Canoeing was a real highlight for most of the people who attended camp. In canoeing we did many fun activities like races, running across the canoes and stuck in the mud. After we went canoeing we could go for a swim in the river and it was really fun. Year 6 camp was one of the best. Andre and Sam

This year we had a chance to go yabbying. We had to walk for approximately ten minutes to a medium sized billabong. The billabong was surrounded by the bush and wildlife was almost everywhere. Once we got there we got a piece of bait and tied it on a string or put it in a net. Then we put it in the water and waited. Most of the groups didn’t catch yabbies. If we didn’t catch yabbies we still caught fish and tadpoles. It was a quiet, fun and relaxing exercise. Chelsea
